Oh, here comes Santa Claus ,

Give him cookies , milk and a round of
applause,

Oh, here comes Santa's sleigh,

Because he needs to give gifts away,

Christmas the festival has come,

In which Santa caps are sold.

Mann Keswani
III Aryabhatta

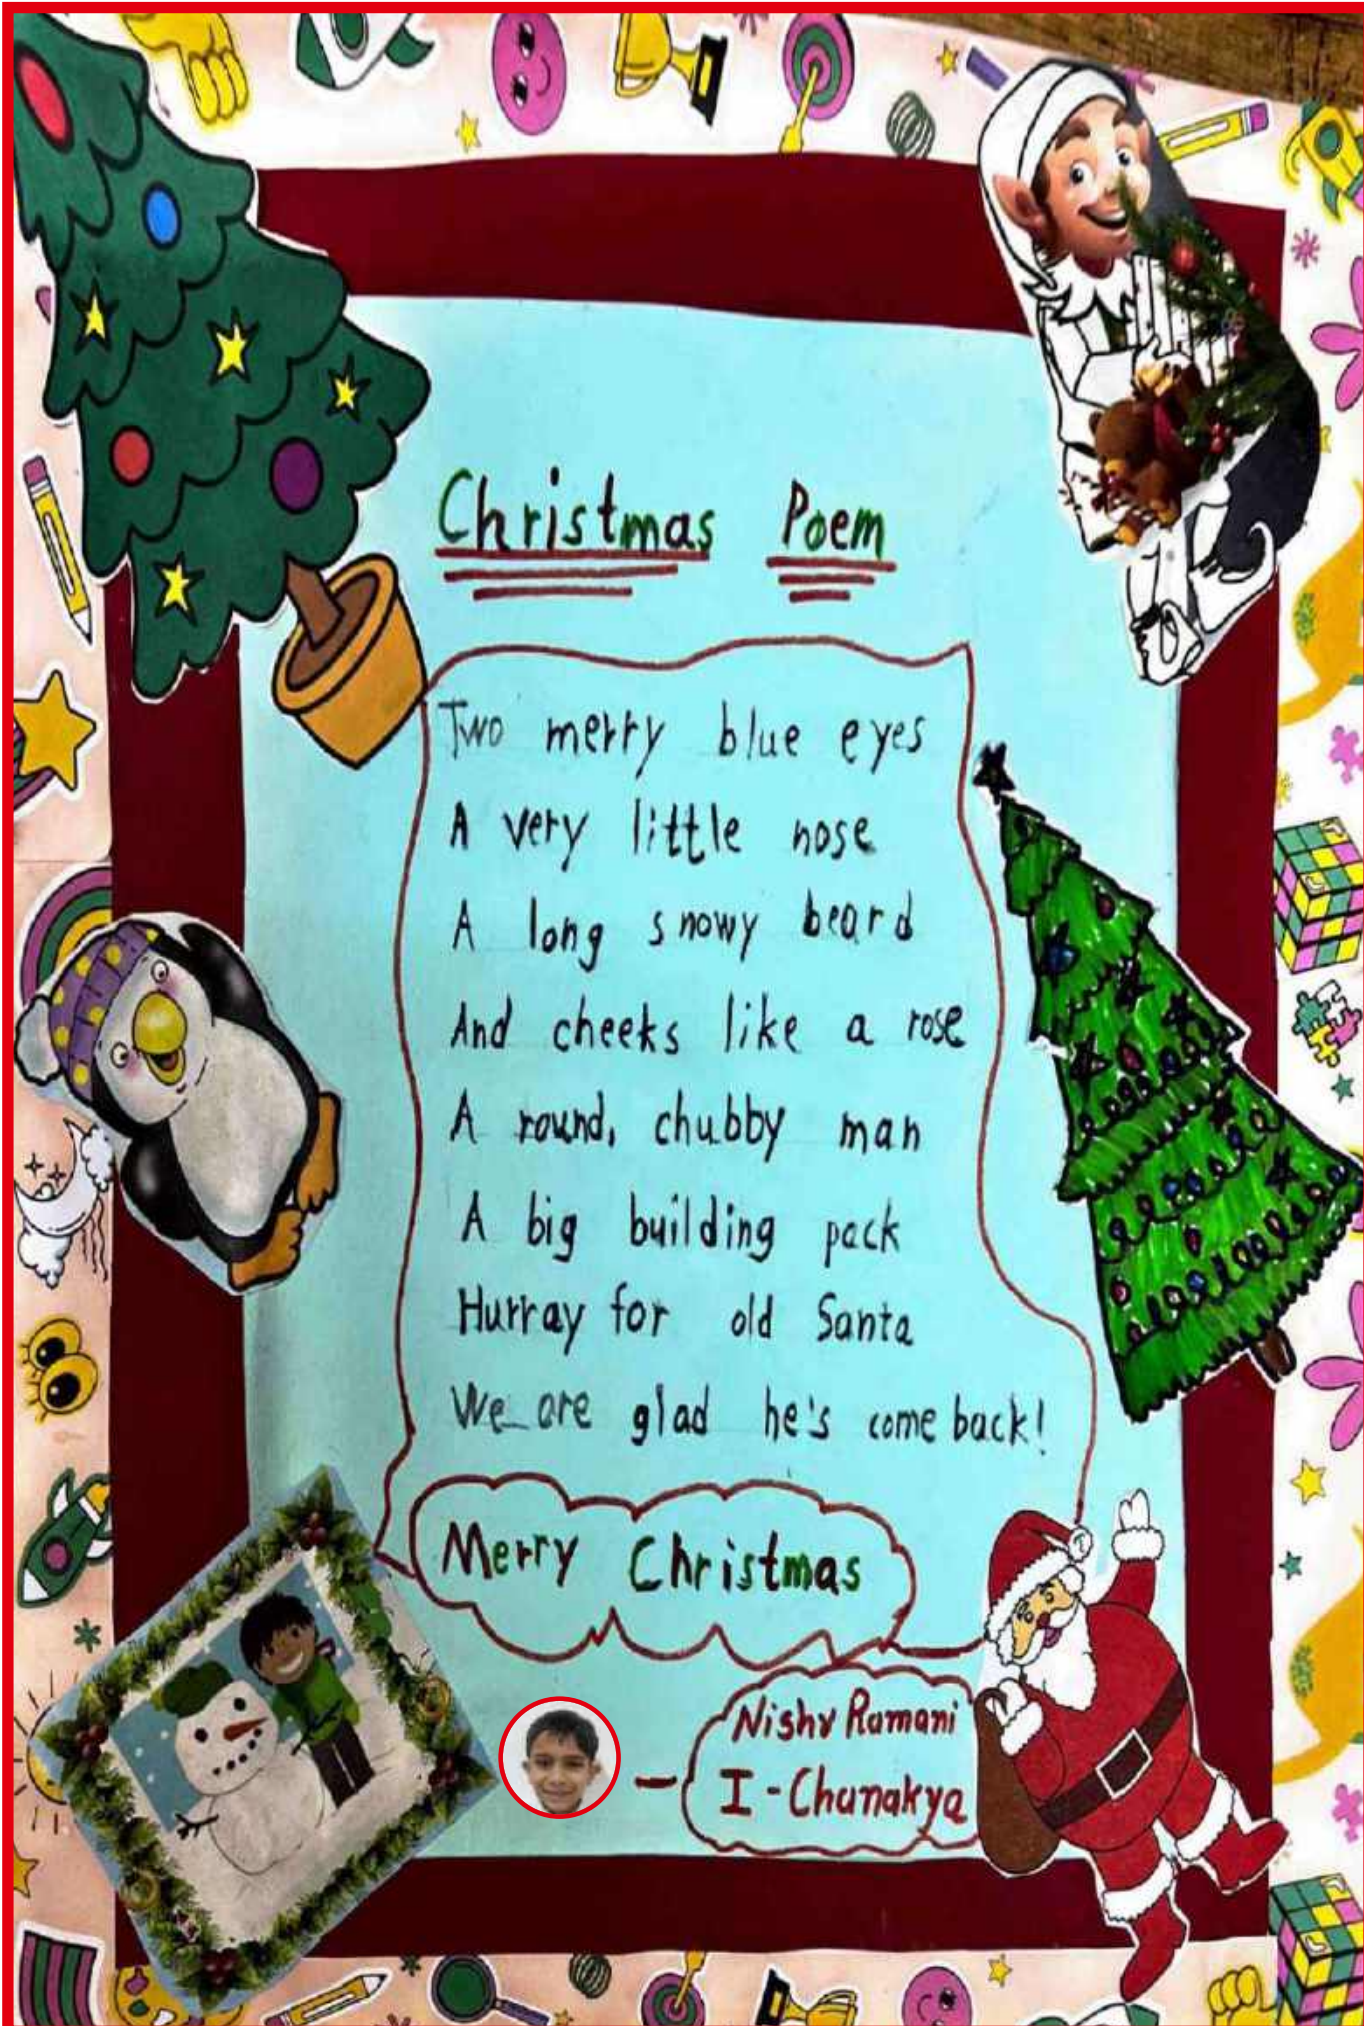

Christmas Poem

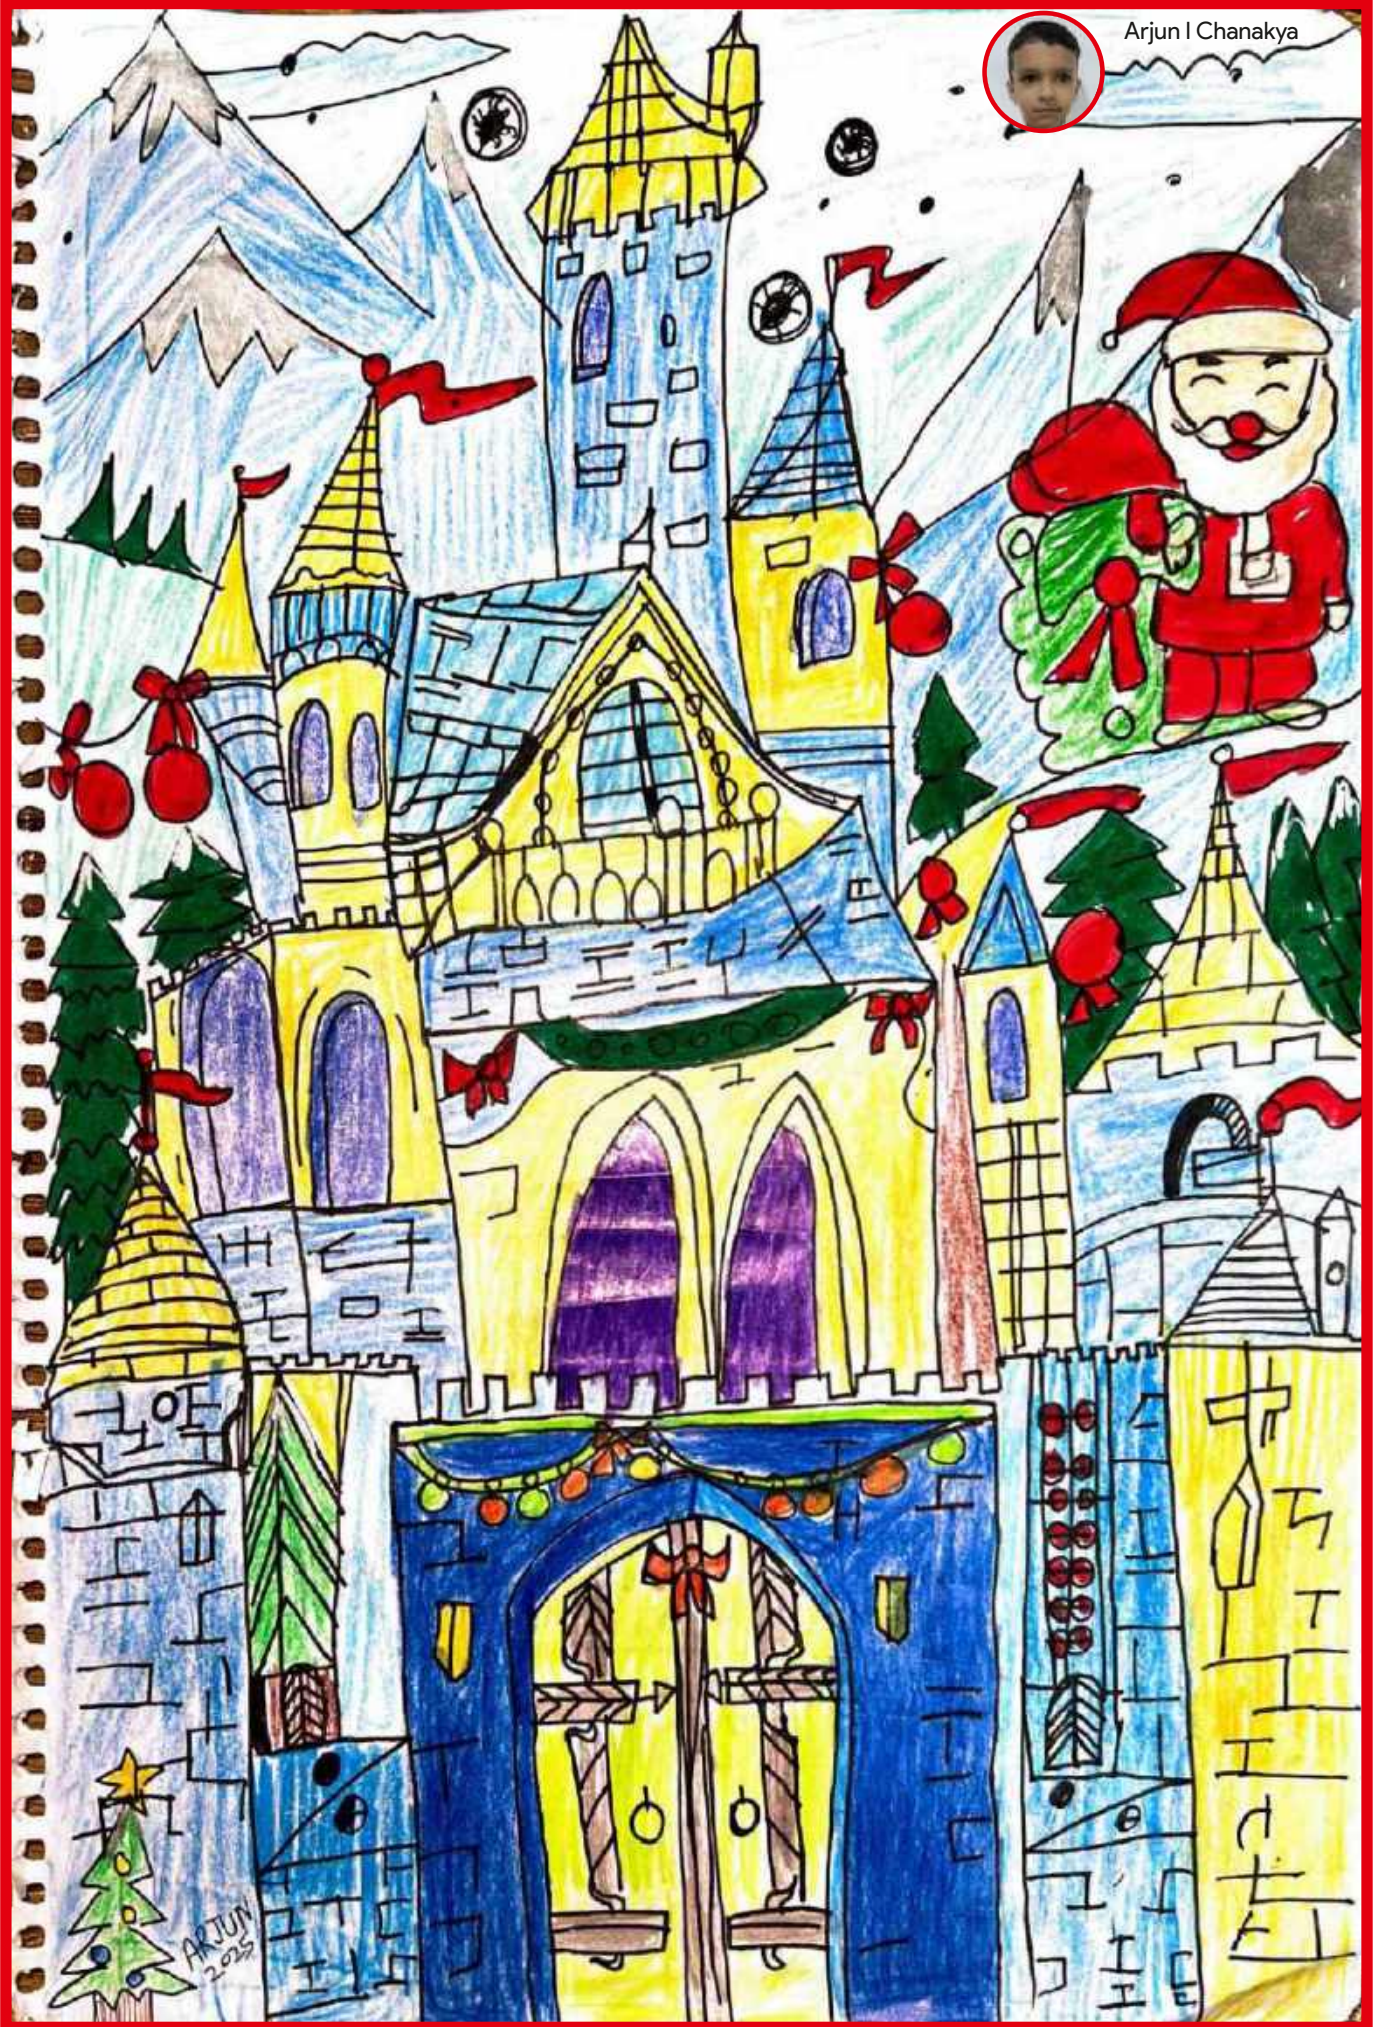

Two merry blue eyes
A very little nose
A long snowy beard
And cheeks like a rose
A round, chubby man
A big building pack
Hurray for old Santa
We are glad he's come back!

Merry Christmas

CHARVI AGRAWAL

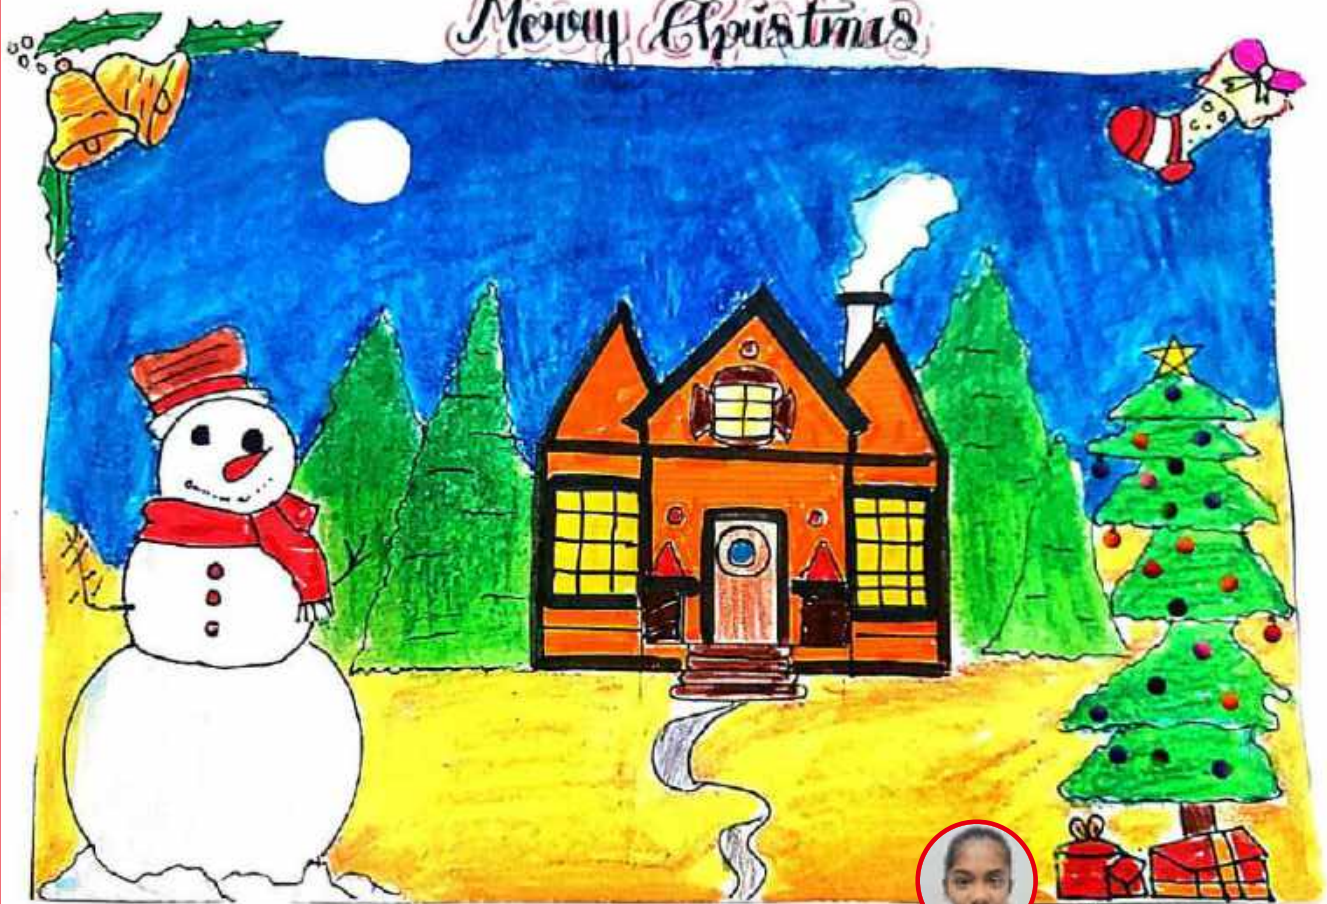

Winter is the coldest season. It's a time for cozy gatherings around a fire, on the earthy flavors of seasonal fruits and vegetables. As days grow shorter the sun's warmth becomes a cherished comfort and the season brings festive celebrations like Christmas and new year, filling the cold air with joy and creating memories. Farmers benefit from winter as their crops grow well and can use winter to rest their fields.

Christmas Poem

Snowflakes fall like stars of white,
Winter glows with gentle light.
Candles shine in every home,
Joy and laughter brightly roam.
Stockings hang and carols flow,
Hearts feel warm and fires glow,
Gifts are wrapped with love and care,
Magic everytime sparkles there.
A hug, a smile - gifts so true,
Makes the world feel bright and new.

Dancing Clouds

Clouds drift softly in the sky,
Floating gently, way up high.
Changing shapes as winds pass by,
A bird, a ship, a butterfly.

White and fluffy, grey or dull,
They bring us shade and rain to all.
They paint both bright & blue,
A moving picture, always new.

When I look up, I feel so free,
The dancing clouds smile back at me.
They glide like dreams across the blue,
Whispering secrets the sky once knew.

By - Divya Tanalala

Christmas Poem

Winter, Winter
Cold and ice
A mug of hot
Chocolate

* Would be nice
And Childrens will play
Snow fight

Pleasant Winter Season

Winter is the coldest season of the year, and it usually comes after autumn. During winter, the days become shorter and the nights become longer. The weather turns cold, and we wear warm clothes like sweaters, jackets, scarves and gloves to keep ourselves warm. Many places have foggy morning, and sometimes it becomes difficult to see clearly. In winter, people enjoy drinking hot tea, coffee and soups to stay warm. During winter season, people like to eat fruits and vegetables like oranges, carrots, strawberries and spinach etc. Overall, winter is a beautiful season that makes the environment calm and peaceful.

Schools in WINTERS

Winter arrives with a soft chill that makes early mornings feel low and sleepy. Getting out of bed becomes a tiny battle as the blankets feel warmer than ever. The fog outside hangs low, and the cold breeze makes the journey to school both exciting and tough. Students huddle in sweaters and scarves, rubbing their hands for warmth while talking about the weather. Morning assemblies feel extra cold, and everyone secretly wishes for the ~~snow~~ sun to rise a little faster. Inside the classroom, the atmosphere feels cozier and students enjoy the warmth of the room. During break, warm tiffins from home - like *panathas*, *poha*, or *idlis* - taste even better in the cold weather. Teachers often remind students to stay warm, drink enough water, and take care of their health. Notice boards get decorated with winter poems, drawings and creative charts. Winters are the best seasons to enjoy cold mornings, cozy classrooms and to make unforgettable moments with friends and school.

MAGICAL CHRISTMAS

I love December
As its winter and christmas
Its snow and cold
and pretty weather

I love christmas
As santa clause comes
He makes kids happy
There is dance and party.

Christmas tree is my favourite.
with red star on the top.
I decorate with gifts and socks.
and lot of sweet bells and stars.

I love this time of year.
As its festival of joy and sharing.
There is kindness love and care.
And lots of lights and play

Remember the Reindeer

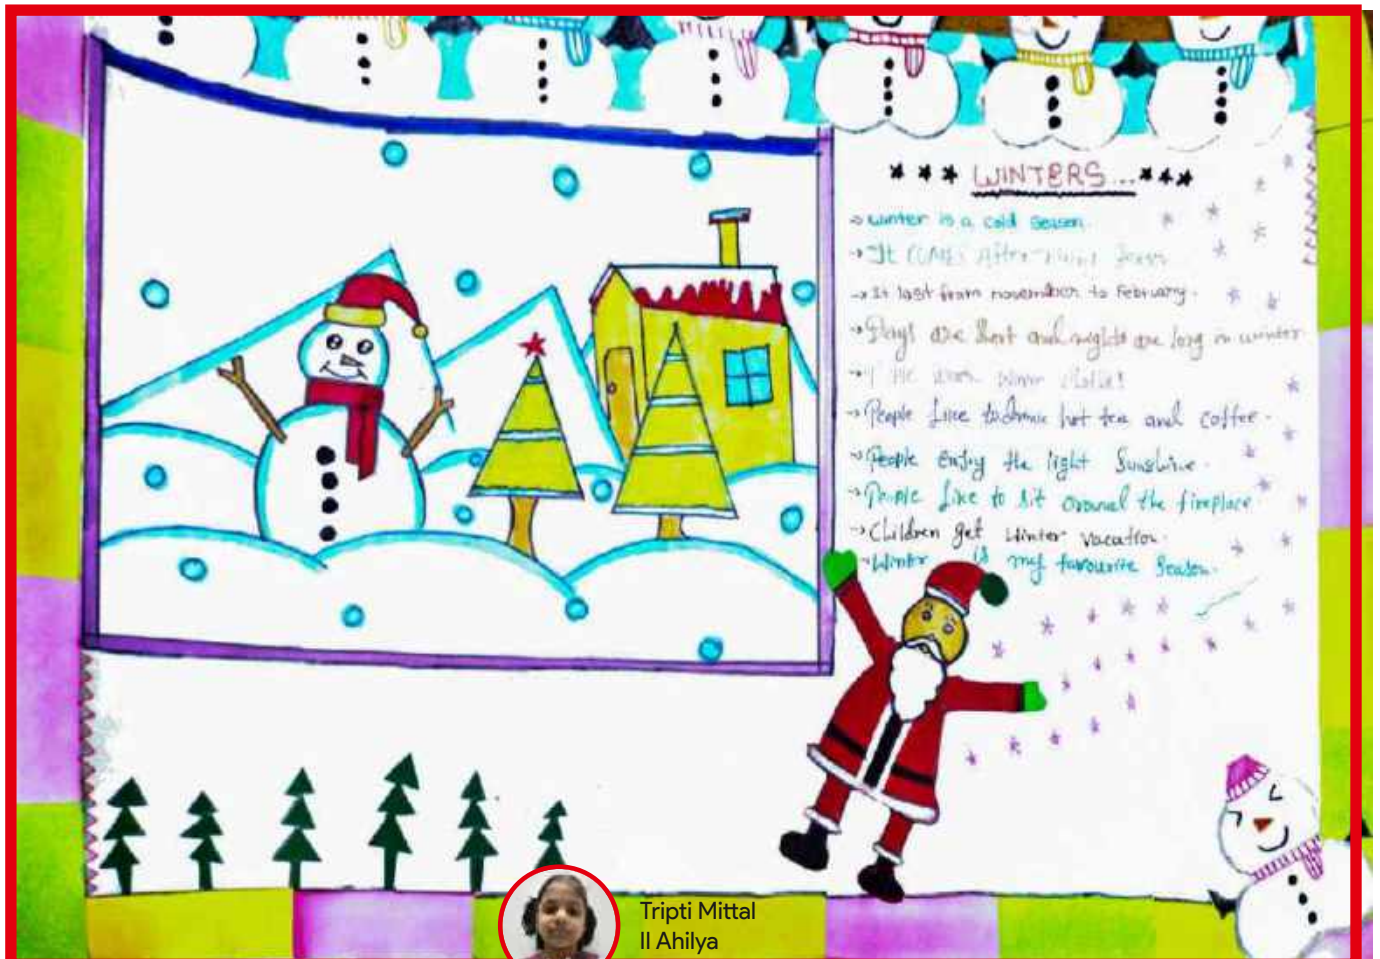

Hang up the stockings.
Decorate the tree.
Presents placed perfectly.
What a sight to see!
Milk and cookies are out,
Kids are tucked in tight.
There's so much to do
On Christmas Eve night!
Before you take a snooze
And dream of the next day,
Don't forget some food
For the friends who pull the sleigh!
You see, reindeer need snacks, too.
A little love and fun
To help Santa through the night.
And get the important job done!

Merry Christmas

The smell of Christmas is a tree
a real tree brought inside
It stands there in our living room
Its green branches spread wide
Popcorn and candy both smell fine
but not as good as that
covered with coloured balls and lights
It wears a star for a hat
That tree makes me think of the woods
And walking in the snow
I am glad its come to stay with us

Winter's Magic Christmas Glow 2025

month december
Frosty Days, Festive Wishes
Wishes bring a special kind of magic to the school campus. The chilly mornings, cozy sweaters, and warm cups of cocoa create a perfect seasonal charm. But what makes this time truly unforgettable is the spirit of Christmas. Despite the cold weather outside, the school feels warmer than ever because of the excitement and happiness all around. Students not only enjoy the season but also understand the true meaning of Christmas - sharing love, joy, and peace with everyone.

The Little Star's Christmas Story

One Christmas night, Santa got lost in the dark sky. A little star saw him and said "I will help you!" The star shined bright and showed Santa the way. Santa followed the star and gave gifts to all the children. In the morning, kids said "Thank you little star!" The star twinkled happily.

Christmas

Christmas celebrated every year on the 25th of December. Christmas is the season of joy, peace and happiness. It is a cultural festival and tells a lot of preparation. Jesus has born on this beautiful day of Christmas which is why people celebrate this day as a festival. People do shopping of these decorative items like light and other things like food, cake, sweet etc. An evergreen fir tree is used to decorate in this wonderful festival. People visit Church on Christmas eve to pray to Christ Jesus. Children are specially excited about Christmas because they seem that they will get beautiful gifts from Santa Claus. Christmas encourages people to live happily. On this day, people sing Christmas carols. Families enjoy delicious food together. Homes are decorated with lights and stars. It is a festival of love and joy.

MERRY CHRISTMAS

-Winters-

"Hot cocoa and a sweater, make a winter day and everything better"

-UNKNOWN

Winter is truly a wonderful time of the year. I think it's special because of its cozy atmosphere, its relief from heat, and a slower pace that allows for rest and reflection, with shorter days making nights feel longer for stargazing or quiet time, all while nature rejuvenates.

One of the most important and American festival comes around this time of the year. It is the joyous time of Christmas. Many people celebrate this festival by decorating their homes and bringing a huge tree, decorating it as a family.

Winter is the time to relax and addle in your blanket all day. The nature works its magic and gives you soft, and white mountains of snow. This is one of the most mesmerizing part of winters. In my opinion, winter is the time where the sun is off duty and cold, icy winds take its place. Winter is truly a season to enjoy with laughter, peace and of course hot chocolate.

MERRY CHRISTMAS

NAME: MD. SULTAN SHAKIB
CLASS: I - SOBHAGI

My favourite festival is Christmas. I like decorating a Christmas tree and wait for Santa Claus for my gifts and chocolates. I also like a small Christmas while I meet my friend and relatives. I also like the traditional food like Plum-cakes, Walnut-cake and spackon Christmas.

DREAMY CHRISTMAS

Snow falls like moonlit feathers from the sky,
Each flake a spell the night lets fly.
The world glows soft in a silver trance -
As winter twirls in a silent dance.

Candy-bright lights drift through the air,
Floating like dreams too soft to snare.
Even the shadows shimmer and gleam -
Touched by the glow of a Christmas dream.

Stars stir gently in the midnight blue,
As if the heavens are dreaming too.
And under their shine, so pure and bright,
Christmas awakens its quite quiet magic tonight.

AMAZING FACTS ABOUT WINTER

Winter cold kills more than twice as many Americans as summer heat does.

The Southern Hemisphere typically has milder winters than the Northern Hemisphere. This is because the Southern Hemisphere has less land and a more maritime climate.

While it seems counterintuitive, Earth is actually closest to the sun in December, even though winter solstice is the shortest day of the year.

According to the Guinness World Records, on January 28, 1887, a snowflake 15 inches wide and 8 inches thick fell in Fort Keogh, Montana, making it the largest snowflake ever observed.

Every winter, at least one septillion (that's 1 followed by 24 zeros) snow crystals fall from the sky.

A New Zealand insect called the Weta freezes completely solid when temperatures drop during the winter. However, when temperatures warm back up, the insect unfreezes, thaws, and resumes its activities.

The average snowflake falls at about 3 mph.

One inch of snow will produce just less than 1/10 of an inch of water when melted. Ten inches of snow will melt down to only 1 inch of water.
